Experience

Ada Developer's Academy | 2016 - Current **Software Engineering Instructor**

Leading a cohort of 24 students, with little to no programming experience, to prepare them for industry with 6 months of full-time, intensive instruction. Teaching best practices in modern web development before students intern at tech companies around Seattle.

Latin School of Chicago | 2015 - 2016 **Computer Science Teacher**

From binary to building blogs, teaching students how they can empower themselves by understanding how the technology around them works. All while building inclusive, collaborative and engaging curriculum for 3 courses.

Skillcrush | 2015 - 2016 **Ruby on Rails Instructor**

Providing support and challenging students in all corners of the world to complete a 3 month, online intensive ruby on rails course. At any given time, I handle around 100 active students with various backgrounds.

Freelance | 2010 - 2016 **Web Developer, Designer & Educator**

Worked on web development projects with a focus on updating technologies and user experience. Have also taught with Kode with Klossy, Flatiron School, General Assembly and Dev Bootcamp.
